Pony Pals - Therapeutic Horsemanship

As part of our Pony Pals program, we offer Pony Pals - Therapeutic Horsemanship; an interactive program that promotes the rehabilitation of individuals with a range of difficulties through equine facilitated activities. This program is designed for both children and adults with needs related to physical/intellectual disabilities and behavioural and socioemotional difficulties. The program is tailored to developmental level and is suitable for all ages 4 and up. We service the Northern Rivers region of NSW and the program can be delivered offsite at a venue of your choosing or can be hosted at Horseshoe Park, located in Kyogle NSW.

The program can be offered as single or ongoing sessions and can be individual or group based. We customise the program according to client's needs and work with you to develop a session plan according to your requirements. As a guide, the program is designed to be delivered in 2.5 hour block sessions, with each session accommodating for a maximum of 20 individuals. Additional sessions can be booked on the same day if needed.

The sessions are goal orientated and strength based. All activities are designed with a particular purpose, including, but not limited to building on knowledge, confidence and self-esteem, social interaction, social engagement, behaviour and emotional control, and relationships with people and animals.

Activities can range from pony grooming and games, to riding on a leadline and trick training.

The cost varies depending on requirements and an itemised quote can be provided upon request. For further enquiries, to request a quote or to make a booking, please contact us at info@horseshoeparkponyrides.com.
